Let Us Review You

- **10 years of FREE* Non-Bias Reviews**
- **Over 1,000 Reviews by my Wife & I**
99.2% Approval Rating
Because we come out and look for the Friendliest and the Best
- **Social Networks**
Great for Mass Marketing but one person can also use this same service to give a negative review
- **Public Review Sites**
When they started to become popular we tried them. Finds out that the public or place can manipulate the ratings. Went back to the locals word of mouth.

We stand strongly by our reviews because we visit regularly and know what our featured places have to offer. Unlike some social media sites, our reviews are not negatively impacted by a single visit or visitor. We understand that there are times when an individual may have had a bad personal experience that day and for whatever reason did not enjoy their visit. Also, there are other times when a place is under construction and a particular exhibit is not available or if it involves a live show something does not go as planned (for example an animal doesn't do a trick or a juggler drops his pins). We base our review on many different experiences and if there is something off track we look at how they handled the unexpected or made up for the unavailable display.
